ENVIRONMENTAL HAZARDS:
For terrestrial uses: Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment wash water or rinsate.

This pesticide is toxic to fish and aquatic invertebrates. Do not apply when weather conditions favor drift from treated areas. Runoff from treated areas may be hazardous to aquatic organisms in neighboring habitats.

Do not apply this product when bees or other pollinators are actively foraging in the treatment area.

DIRECTIONS FOR USE:
This product MUST be diluted in water before use. Use immediately after dilution. Mix at dilution rate on the label to prevent plant damage.

MIX DIRECTIONS:
Add sufficient water to the clean mixing tank to allow proper agitation. Add the correct amount of MAGNOTROP to tank. Maintain agitation until solution is used. If other pesticides and/or adjuvants are to be added, do so after MAGNOTROP has been thoroughly mixed.

For field sprays: Keep unprotected people out of treated areas until sprays have dried.

PRODUCT DESCRIPTION:
MAGNOTROP is an aqueous emulsion containing eugenol, castor oil, and clove oil. MAGNOTROP is a nematicide.

MODE OF ACTION:
MAGNOTROP is a nematicide with a unique formulation that uses eugenol, castor oil, and clove oil as its active ingredients. It is an effective tool for Integrated Pest Management (IPM), targeting J2 larvae and eggs of various nematode species, leading to their mortality.

COMPATIBILITY:
MAGNOTROP is compatible with most used insecticides and fungicides in agriculture, including products applied as seed treatments, in-furrow, or via foliar application. Always read and follow all precautions and limitations on the labeling of all products used in tank mixtures. Do not use with any product whose label prohibits the use of oils.

APPLICATION INSTRUCTIONS:
MAGNOTROP can be applied as a seed treatment, in-furrow, or Broadcast application to control nematodes. Always follow the equipment manufacturer's instructions.

In-Furrow Application: Apply 7.0 fl oz per acre in total spray volume of 10 gallons. Fill the clean mixing tank with enough water to ensure proper agitation. Add the correct amount of MAGNOTROP to the tank. Maintain agitation until the solution is fully applied. If other pesticides and/or adjuvants are to be included, add them only after MAGNOTROP has been thoroughly mixed.

Broadcast Application: Apply 14.0 fl oz per acre in total spray volume from 5 to 20 gallons, depending on the crop. Fill the clean mixing tank with enough water to ensure proper agitation. Add the correct amount of MAGNOTROP to the tank. Maintain agitation until the solution is fully applied. If other pesticides and/or adjuvants are to be included, add them only after MAGNOTROP has been thoroughly mixed.

MAGNOTROP may be applied using powered or manual pesticide application equipment, including but not limited to high-volume, low-volume, ultra-low volume (ULV), and chemigation systems. Always follow the equipment manufacturer's instructions when using these types of equipment.

NOTE: This product has been evaluated for phytotoxicity on a wide range of plants. However, since all combinations or sequences of pesticide sprays including fertilizers, surfactants and adjuvants have not been tested, spray a small area first to make certain no phytotoxicity occurs. Avoid any spray drift on non-target crops or sites by following appropriate spray drift control measures.

USE RATES FOR LISTED PESTS BY USE SITE:
MAGNOTROP is intended for use on outdoor row crops, including food and non-food crops.

Refer to the tables below to determine the appropriate application rate based on the use site and target pest.

Application rates are expressed in fluid ounces of MAGNOTROP per acre

CROP	TARGET	USE RATE	APPLICATION INSTRUCTIONS
FOR USE ON OUTDOOR ROW CROPS SUCH AS: Cereal grains, Cotton, Forage, Fodder, and Straw of Cereal Grains, Grass Forage, Fodder, and Hay, Nongrass animal feeds, Oilseed, Peanut, Soybean	Control of Nematodes	In-furrow: 7.0 fl oz per acre	Volume per acre: 10 gallons
		Broadcast application: 14.0 fl oz per acre	Volume per acre: 5-20 gallons

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in the original container at room temperature. Keep the container tightly closed when not in use. Avoid excessive heat and direct sunlight.

Disposal: Do not reuse or refill this container. If available or required, offer the container for recycling. Otherwise, dispose of in a sanitary landfill or by incineration in accordance with local regulations. Follow local waste disposal authority guidelines for any unused product remaining in the container.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY:

By using this product, the user agrees to the following terms:

LIMITED WARRANTY: To the extent consistent with applicable law, BIOTROP LLC warrants that:

(a) this product conforms to the chemical description on the label;

(b) this product is reasonably fit for the purposes stated on the label, when used according to label directions and subject to the inherent risks described herein; and

(c) the directions, cautions, and other statements on this label are based on evaluations by qualified

experts, including reasonable tests of effectiveness and toxicity to laboratory animals and plants, as well as field experience reports.

Testing has not been conducted on all plant varieties, crop types, or under all possible growing conditions, climates, or combinations of applications. Therefore, performance may vary.

No other express warranties are made. BIOTROP LLC does not authorize any agent or representative to make any additional warranties, express or implied. To the extent consistent with applicable law, BIOTROP LLC disclaims all implied warranties, including but not limited to warranties of merchantability and fitness for a particular purpose.

This limited warranty does not cover, and the user assumes full responsibility for any loss or damage arising from use of the product in a manner inconsistent with label instructions, cautions, or warnings.

To the extent consistent with applicable law, BIOTROP LLC and the seller shall not be liable for any special, indirect, incidental, or consequential damage resulting from the use or handling of this product.
