JOB TO SORT BY

June 2026

DELIVERED RETAIL PRICES

Find the right product in three steps.

1

Start with the job.

Every product is tagged by what it does in the field. The [product finder on page 3](#) lists all 64 products against 16 jobs, from surfactants to soil conditioners, with the page each one is on.

2

Read the rate and mixing notes.

Rates and tank-mix warnings come from each product label. Jar test before tank mixing, and always read and follow the full label.

3

Pick your container.

Prices are delivered retail for jugs, drums, totes and tankers, effective June 2026. Products without a listed price are quoted by phone.

SORT IT ONLINE

Filter this whole catalog by job, size or name.

agritecint.com/catalog

Tap a job like Surfactants or Foliar feeds and the list narrows to match. Links open straight to ordering.

Organic-suitable. Organic-suitable means the product label reads “Suitable for organic farming” (PyroLift: OMRI-listed). Confirm any input with your certifier before using it on certified acres.

Not sure where to start? Most programs start with a soil test. Send yours and an AgriTec soil advisor will match products to the numbers.

Find products by job. Read across a row to see every job a product does. The solid dot is its main job.

Spray tank additives

2 PRODUCTS

Surfactants, defoamers and pH buffers that ride along with the herbicide, pesticide or foliar product you are already spraying.

**Non-ionic
Adjuvant**

Herbigant

Soap-Based Non-Ionic Adjuvant**Non-ionic Adjuvant · fatty-acid soap**

A natural non-ionic adjuvant built on fatty-acid soap. Helps fertilizers, pesticides and other spray products carry into plant tissue.

RATE 1 oz per gallon of spray solution, up to 2 oz.

MIXING Never mix stronger than 20:1. Jar test first.

Surfactants & adjuvants

5 gal jug · 55 gal drum · 275 gal tote

PRICED BY QUOTE**Call (833) 247-4832**

Sur-Tec

Non-Ionic Surfactant + pH Buffer**Non-ionic Surfactant · pH buffer · liquid AMS · 90% active**

A non-ionic surfactant and pH buffering agent for herbicide and pesticide spray tanks. Works as a spreader-sticker, penetrant, water softener and anti-foaming agent.

RATE 1 gal per 1,000 gal of spray solution (12.8 oz per 100 gal). Aerial: 1.3 oz/ac. Buffer the tank to pH 4.0 to 6.0.

MIXING Follow the pesticide label when it calls for a different tank pH.

Surfactants & adjuvants**Defoamers****Water conditioners & pH buffers**

5 gal jug

PRICED BY QUOTE**Call (833) 247-4832**

Liquid calcium

5 PRODUCTS

Soil-applied calcium for pH and base saturation, plus foliar calcium for in-season needs.

Advanced-Cal

Chelated Liquid Calcium + Micros + Microbes**Chelated Liquid Calcium · + B · Mn · Fe · S · microbes**

Pro-Cal's bigger sibling. Adds chelated micronutrients (boron, manganese, iron, sulfur) and a microbial blend that lifts nutrient cycling and fertilizer efficiency alongside the calcium correction.

RATE 0–5 gal/ac based on pH and base saturation

Liquid calcium**Micronutrients****Sulfur****Biologicals & biostimulants**

5 gal jug	\$170	\$34.00/gal
55 gal drum	\$975	\$17.73/gal
275 gal tote	\$3,600	\$13.09/gal
4100 gal tanker	\$38,950	\$9.50/gal

Order online at agritecint.com

F-Cal

Fish + Liquid Calcium (1-0-0)

1-0-0 · 10% Ca · fish + calcium chloride

10% calcium from calcium chloride with fish for 1% nitrogen, plus carbohydrates and trace minerals. Ground or foliar applied.

RATE 4 gal/ac through a pivot or sprayer in at least 20 gal of water, every 4 to 6 weeks.

Liquid calcium

Foliar feeds

5 gal jug · 55 gal drum · 275 gal tote

PRICED BY QUOTE

Call (833) 247-4832

10% Calcium

Organic Calcium

Foliar Calcium (10% Ca)

10% Calcium · foliar calcium

10% calcium from calcium chloride for foliar use by drip, chemigation, air or ground rig, where a crop shows calcium-uptake disorders.

RATE Up to 4 gal/ac, diluted at least 10:1.

MIXING Keep out of phosphate and potash tanks. Not compatible with glyphosate or 2,4-D amine or ester herbicides.

Liquid calcium

Foliar feeds

5 gal jug · 55 gal drum · 275 gal tote

PRICED BY QUOTE

Call (833) 247-4832

Pro-Cal

Bio-Activated Liquid Calcium

Liquid Calcium · + enzymes · organic carbon

Liquid calcium that delivers the soluble Ca portion of lime in a fast-acting form: raises pH, balances Ca base saturation, and moves the soil test in weeks instead of waiting 18–36 months for dry ag-lime to fully react.

RATE 0.5–5.5 gal/ac based on soil pH and base saturation

Liquid calcium

5 gal jug	\$168	\$33.60/gal
55 gal drum	\$865	\$15.73/gal

4100 gal tanker	\$35,000	\$8.54/gal

Order online at agritecint.com

White Cloud

Liquid Calcium (10% Ca)

10% Calcium · calcium chloride

10% calcium from calcium chloride, labeled for ground application with liquid nitrogen or water, or as a foliar spray.

RATE Ground: 3 to 4 gal/ac. Foliar: 32 to 64 oz/ac.

MIXING Do not apply stronger than an 8:1 dilution.

Liquid calcium

Foliar feeds

Organic-suitable

5 gal jug · 55 gal drum · 275 gal tote

PRICED BY QUOTE

Call (833) 247-4832

Nitrogen & sulfur

8 PRODUCTS

Slow-release and straight nitrogen, and nitrogen-sulfur liquids.

10-0-10

10-0-10+

Nitrogen + Potash, No Phosphate

10-0-10 · ammoniacal + urea N · potash

Nitrogen and potash with no phosphorus, for ground that already tests sufficient in P. In-furrow, 2x2, side-dress, top-dress or foliar.

RATE 6 to 10 gal/ac. Base the rate on a soil or tissue test.

MIXING Do not mix with calcium-based fertilizers.

25-0-0

Slow Release Triazone Nitrogen (25% N)

25% N · triazone · slow-release

Controlled-release nitrogen that can last up to 300 days in the soil. Use less, lose less, hold steady through the season.

Nitrogen

55 gal drum	\$850	\$15.45/gal
275 gal tote	\$3,176	\$11.55/gal
4100 gal tanker	\$37,146	\$9.06/gal

Order online at agritecint.com

25-0-0+

Slow-Release Nitrogen +

25-0-0+ · slow-release N

The 25-0-0 slow-release triazone-nitrogen platform with an added package: controlled-release N that holds steady through the season.

Nitrogen

55 gal drum	\$980	\$17.82/gal
275 gal tote	\$3,027	\$11.01/gal
4100 gal tanker	\$37,761	\$9.21/gal

Order online at agritecint.com

15-0-0

Alt-15

Slow-Release Foliar Nitrogen (15-0-0)

15-0-0 · 9% polymethylene urea

15% nitrogen: 6% urea nitrogen and 9% slow-release polymethylene urea, with ammonium chloride. A foliar N for row crops, alfalfa, turf and trees.

RATE 32 oz/ac on row crops. 1 gal/ac on alfalfa, turf, trees and shrubs.

MIXING Some sediment can settle out; it is not part of the active ingredients.

Nitrogen

Foliar feeds

5 gal jug · 55 gal drum · 275 gal tote

PRICED BY QUOTE

Call (833) 247-4832

AMS 35%

Ammonium Sulfate Solution (35%)

Ammonium Sulfate 35% · N + S

35% ammonium sulfate solution, a liquid nitrogen-sulfur source. Bulk sizing.

Nitrogen

Sulfur

275 gal tote	\$2,000	\$7.27/gal
4100 gal tanker	\$27,675	\$6.75/gal

N-Cal

Nitrogen + Calcium Liquid (12-0-0)

12-0-0 · 6% Ca · urea + calcium chloride

12% nitrogen and 6% calcium from urea and calcium chloride, with slow-release nitrogen, carbohydrates and trace minerals.

RATE 5 gal/ac, diluted 50/50 with water to prevent burn.

MIXING Keep out of phosphate and potash tanks. Not compatible with glyphosate or 2,4-D amine or ester herbicides.

Nitrogen

Liquid calcium

Foliar feeds

5 gal jug · 55 gal drum · 275 gal tote

PRICED BY QUOTE

Call (833) 247-4832

Nitro-Maxx+

Slow-Release Liquid Nitrogen (20% N)

20% N · 4% Ca · slow-release · 2.19 lb N/gal

6–7× more available than dry urea. Slow-release formulation minimizes burn risk and volatility loss while extending the active period.

MIXING Carries 4% calcium, so keep it out of phosphate tanks.

Nitrogen

Foliar feeds

5 gal jug	\$150	\$30.00/gal

Potassium Carbonate 0-0-32

Potassium Carbonate (0-0-32)

0-0-32 · potassium carbonate

High-analysis potassium as potassium carbonate: 0-0-32, chloride-free, fast into plant tissue. Bulk sizing.

Potassium

Foliar feeds

275 gal tote	\$3,100	\$11.27/gal
3550 gal tanker	\$31,772	\$8.95/gal

[Order online at agritecint.com](#)

Potassium Lactate 0-0-22

Potassium Lactate (0-0-22)

0-0-22 · potassium lactate

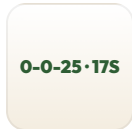

Potassium as potassium lactate: 0-0-22, a carbon-complexed, biology-friendly potassium source. Bulk sizing.

Potassium

Foliar feeds

275 gal tote	\$2,736	\$9.95/gal
4000 gal tanker	\$33,000	\$8.25/gal

Potassium Thiosulfate 0-0-25-17S

Potassium + Sulfur (0-0-25-17S)

0-0-25 · 17S · K + sulfur

Potassium thiosulfate at 0-0-25 with 17% sulfur, delivering potassium and plant-available sulfur together. Bulk sizing.

Potassium

Sulfur

275 gal tote	\$4,000	\$14.55/gal
3550 gal tanker	\$40,470	\$11.40/gal

[Order online at agritecint.com](#)

Micronutrients

4 PRODUCTS

Chelated and complexed micros for correcting what a soil or tissue test found.

BoroLift

Boron Liquid Fertilizer (10% B)

10% Boron · MEA + boric acid

High-uptake complexed boron (Boron MEA + boric acid). Delivers up to 3× more boron into plant tissue than standard products, which is critical for pollen viability, pod fill, sugar movement, and cell wall integrity.

Micronutrients

Foliar feeds

5 gal jug	\$300	\$60.00/gal
55 gal drum	\$1,400	\$25.45/gal
275 gal tote	\$4,500	\$16.36/gal
4000 gal tanker	\$54,000	\$13.50/gal

[Order online at agritecint.com](#)

Magnesium EDTA

Chelated Magnesium (EDTA)

Magnesium (EDTA) · fully chelated

Fully-chelated magnesium (EDTA) that corrects magnesium deficiency with high plant availability and clean tank-mix compatibility.

Micronutrients

Foliar feeds

5 gal jug	\$195	\$39.00/gal
55 gal drum	\$1,732	\$31.49/gal
275 gal tote	\$6,187	\$22.50/gal
4100 gal tanker	\$59,450	\$14.50/gal

[Order online at agritecint.com](#)

Manganese EDTA

Chelated Manganese (EDTA)

Manganese (EDTA) · fully chelated

Fully-chelated manganese (EDTA) that targets the manganese deficiency common on high-pH and high-organic-matter soils, with high uptake.

Micronutrients

Foliar feeds

5 gal jug	\$250	\$50.00/gal
55 gal drum	\$1,705	\$31.00/gal
275 gal tote	\$6,050	\$22.00/gal
4000 gal tanker	\$77,000	\$19.25/gal

[Order online at agritecint.com](#)

Zinc EDTA

Chelated Zinc (EDTA)

Zinc (EDTA) · fully chelated

Fully-chelated zinc (EDTA) that corrects the zinc deficiency limiting early-season growth and root development, especially on corn.

Micronutrients

Foliar feeds

5 gal jug	\$168	\$33.60/gal
55 gal drum	\$1,567	\$28.49/gal

Sea Minerals

Min-Tec

Processed Sea Minerals

Sea Minerals · sodium removed

Physically processed seawater with its naturally occurring minerals concentrated and excess sodium removed. For row crops, grasses, vegetables, vines and trees.

RATE In-furrow: 8 to 16 oz/ac with a buffer. Foliar or top-dress: 1 to 4 qt/ac every 4 to 6 weeks.

MIXING Always add Min-Tec to the tank first. Jar test first.

Foliar feeds

Insect control

1 PRODUCT

A minimum-risk insect spray for perimeters, waterways and soft-bodied pests.

1% Garlic Oil

MD Pesticide

Minimum-Risk Insect Spray

1% Garlic Oil · fatty-acid soap

Garlic oil and fatty-acid soap for soft-bodied insects, mosquito larvae over waterways, and perimeter treatments around buildings.

RATE 3 to 6 oz per gallon of water, depending on the use. Follow the label.

Minimum-risk pesticide exempt from EPA registration under FIFRA 25(b). Sold only in states that exempt it or have approved it.

Insect control
